NARRATIVE

I am a member of the Redmond Police Department Traffic Division and was dispatched to the report of a traffic collision involving a vehicle and pedestrian. I was a short distance away and arrived quickly with Officer Balazic, who was another member of the RPD Traffic Division.
Once on scene I saw vehicle 1 stopped in the crosswalk for eastbound traffic on NE 104 St. I saw the pedestrian sitting on the curb of the roadway. The pedestrian was conscious/alert and able to walk under her own power. The pedestrian said her wrists hurt and she couldn't remember what happened before the collision. Redmond FD arrived on scene to evaluate the pedestrian, and later transported her to a local hospital.
I spoke with driver 1, who said she was driving eastbound on NE 104 St when she struck the pedestrian. Driver 1 said she had tried to stop when she saw the pedestrian, but it was too late because it was getting dark and hard to see the pedestrian. There were no signs of impairment with driver 1. I saw some light markings on vehicle 1, but there was not obvious damage to the vehicle from the pedestrian strike. Photos were taken of the vehicle and saved to evidence.com.
I spoke with a witness who said he was driving westbound, when he saw the pedestrian preparing to cross in the crosswalk south to north across the roadway. The witness said he started to slow so the pedestrian could cross, but the vehicle heading eastbound did not. The witness said the pedestrian waved at vehicle 1, like she was getting the driver's attention to cross. The witness estimated vehicle 1 struck the pedestrian at around 10-15 MPH, which sent her up into the air and she landed on the westbound lanes of travel.
I explained to driver 1 she would be mailed a traffic infraction. I told driver 1 she needed to stop for pedestrians in the crosswalk when they were crossing. I told the driver she needed to be careful in the school zone in front of Redmond High School. Although it was not during school hours, and the speed signs were not flashing, it was still a school zone with children on the sidewalk. The roadway and sidewalks were busy as there was an event at RHS.
I went to the hospital and spoke with the pedestrian's family and provided them information regarding the incident.
